

August 5-7  
**2014**

**Resilient Agriculture:  
Adapting to a Changing Climate**

# Save the Dates August 5-7, 2014

Details at [www.sustainablecorn.org](http://www.sustainablecorn.org) and  
[www.25x25.org](http://www.25x25.org)

Farmers! Plan to join us in Ames, Iowa for a conference designed exclusively for YOU. Talk with other farmers and invited ag scientists and industry leaders to learn more and discuss:

- Latest science on climate impacts on agriculture
- Adaptation strategies for corn/soybean-based systems

Crop advisors and other non-farmers are invited to attend the conference online, where it will air live. Farmers may also attend online. Registered participants will receive all conference materials. Additional details are available at <http://www.sustainablecorn.org/2014conference>. Registration begins March 1.

## Lois Wright Morton

Project Director, USDA-NIFA Climate & Corn-  
based Cropping Systems CAP  
Iowa State University  
317 East Hall, Ames, IA 50011

United States Department of Agriculture  
National Institute of Food and Agriculture
